# Reach New Heights in Professional Excellence

## Earn an ASIS board certification.

Your law enforcement background has given you relevant knowledge and experience, but how do you convey your abilities to private sector security? ASIS accreditation can ease the path and help enhance employment opportunities in these sectors and more:

- Health Care
- Insurance
- Emergency Management
- Loss Prevention
- Executive Protection
- Investigations

### ASIS CERTIFICATIONS:

- **Certified Protection Professional (CPP)**  
Considered the 'gold standard' certification for security management professionals, earning the CPP is demonstrable proof of your knowledge and competency in seven key domains essential to the practice of security management.
- **Professional Certified Investigator (PCI)**  
Earning the PCI provides independent confirmation of your knowledge and experience in case management, evidence collection, and preparation of reports and testimony to substantiate findings.
- **Physical Security Professional (PSP)**  
PSP certification validates knowledge in physical security assessments, application, design, and integration of physical security systems, and implementation of security measures.
- **Associate Protection Professional (APP)**  
Provides the first "rung" on the security manager's career ladder for those with 1-4 years of security management experience.

*"I see the CPP as a benchmark and seal of approval. I'm recognized as a subject matter expert, and I've been given greater job responsibilities."*

Nicholas G. Breiner, CPP, PCI, PSP, Police Captain, Belleville Police Department

By earning the APP, CPP, PCI, and PSP designations, employers, partners, and peers will instantly recognize you as being among the "best of the best".

**Qualified U.S. applicants may receive reimbursement for the certification exams through the G.I. Bill. An application is available at [www.gibill.va.gov](http://www.gibill.va.gov) or call +1.888.442.4551 and request VA Form 22-1990.**
