[Access Control & Security Systems](#) is a magazine that focuses on how America's commercial, industrial and institutional facilities employ security systems to make their sites safer. This publication reports on the equipment used in security systems, and especially on how that equipment is integrated into "security solutions."

[American Military University](#) (AMU) offers a student-focused online learning platform. AMU is affiliated with the American Public University, which offers graduate and undergraduate degree and certificate programs relating to the National Security and related communities and other interested scholars.

[Association of Licensed Detectives of NY State](#) (ALDONYS) founded in 1950 as a not-for-profit industry membership association, ALDONYS is the largest New York State organization solely representing the interests of licensed private investigators and watch, guard and patrol agencies.

[Associated Security Services and Investigators](#) (ASSIST) is committed to the enhancement of security services for Texas citizens. We are dedicated to promoting and safeguarding high-standards of services in the security industry through quality training programs for security officers, championing of appropriate legislative and continuous improvement initiatives, and promoting and sustaining constructive dialogue among security professionals in Texas.

[California Association of Licensed Security Agencies, Guards and Associates](#) (CALSAGA) represents the contract private security industry in the State of California, including private security firms, private security training facilities, security management, security training instructors, security officers, proprietary security and related industries.

[Canadian Security Magazine](#) for more than 30 years has been the voice of the security industry in Canada. It is the leading publication in Canada for corporate security directors, life safety managers and loss prevention professionals as well as the integrators and service providers who work with them. Published nine times a year, Canadian Security has a print circulation of 13,000.

[Canadian Society for Industrial Security](#) (CSIS) is a professional association for persons engaged in security in Canada. The Society is a principal forum for professional security concerns and issues and it provides the impetus for developing high standards for security education and training programs for security professionals.

[Door and Hardware Institute](#) (DHI) is the only professional association dedicated to the Architectural Openings Industry. With the purpose of advancing life safety and security within the built environment, DHI represents the North American openings marketplace as the advocate and primary resource for information, professional development and certification. With the focus on our members, DHI strives to be the indispensable resource for industry trends, best business practices and advanced education. DHI remains a powerful advocate for creating a favorable code environment in the life safety and security industry.

[Electronic Security Association](#) (ESA) formerly the National Burglar and Fire Alarm Association is the number one association of professional alarm companies. ESA works at local, state and national levels to address industry issues and provide information that can help you make informed decisions when selecting an electronic security company or a system that meets your needs and fits your budget.

[International Association for Healthcare Security and Safety](#) (IAHSS) is the only organization solely dedicated to professionals involved in managing and directing security and safety programs in healthcare institutions.

[International Association of Professional Security Consultants](#) (IAPSC) is the most respected and widely recognized consulting association in the security industry. Its rigid membership requirements ensure that potential clients may select from the most elite group of professional, ethical and competent security consultants available to them. The primary purpose of the IAPSC is to establish and maintain the highest set of standards for professionalism and ethical conduct in the industry.

[International Foundation for Protection Officers](#) (IFPO) is a non-profit organization dedicated to facilitating the training and certification needs of protection officers and security supervisors/managers from both the commercial and proprietary sectors.

[International Security Management Association](#) (ISMA) is an international security association of senior security executives from major business organizations located worldwide. ISMA's mission is to provide and support an international forum of selected security executives whose combined expertise will be utilized in a synergistic manner in developing, organizing, assimilating, and sharing knowledge within security disciplines for the ultimate purpose of enhancing professional and business standards.

[National Association of Security Companies](#) (NASCO) is dedicated to promoting and sustaining professional integrity and competence throughout every aspect of the private security business. At the forefront of efforts to set meaningful standards for the private security industry, NASCO also monitors proposed state and federal legislation and regulations that might affect the quality and/or effectiveness of private security services.

[National Council of Investigation and Security Services](#) (NCISS) is a cooperative effort of those companies and associations responsible for providing private security and investigation services to the legal profession, business community, government and the public. Each day we find an increasing number of problems confronting the orderly growth of our profession. These problems include, among others: overly restrictive legislation regarding training and standards, proliferation of legislation requiring local licensing, public misunderstanding and misinformation on the role and contribution of private investigators and security services, and an uninformed media. It is the role of NCISS to meet and solve these problems while seeking to uncover and recommend action on any hidden potential problems which may have an effect on our profession.

[National Law Enforcement and Corrections Technology Center](#) (NLECTC) was created in 1994 as a component of the National Institute of Justice's (NIJ's) Office of Science and Technology. The NLECTC system consists of facilities across the country that are located with an organization or agency that specializes in one or more specific areas of research and development. Although each NLECTC facility has a different technology focus, they work together to form a seamless web of support, providing technology assistance, support, and information.

[Security Distributing and Marketing Magazine](#) is a publication covering security systems and integration. Website contains articles, special reports, guides, news, a job bank, and access to marketing information.

[Security Magazine](#) is the magazine for buyers of security, life safety and integrated products, systems and contracted services in business, industry and government.

[Security Management Buyers Guide](#) published by ASIS International, is the most current, comprehensive database of security products and services in the industry. Comprising more than 3,000 manufacturers and suppliers of security products and services, the SIBG fully categorizes the available resources of the security industry from the most elemental tools to its most advanced technology.

[Security Management Magazine](#) is the magazine of the ASIS International (formerly the American Society of Industrial Security). The magazine contains ideas, topics and practices for the security profession.

[Security Products Magazine](#) concentrates on delivering the most up-to-date information for those who buy and specify products and services in the security, safety and fire protection fields. Security Products gives practical advice on how to stay one step ahead of the market through informative features, industry news and hundreds of new product releases twelve times a year.
