

SoBran Makes a Strong Showing at ASIS 2009

Innovative Solutions for Complex Challenges Highlights SoBran's Show Debut

FAIRFAX, Va. (Aug. 25, 2009) — [SoBran, Inc.](#), a leading provider of security system engineering and support services will debut its most recent line of innovative security solutions at the 55th annual ASIS conference, September 21-24, 2009, in Anaheim, Calif.

Backed by ISO 9001:2008 certification and a world-class service model, SoBran, Inc., is a pioneer in the development of critical infrastructure protection, engineering support, CBRNE systems integration and development, BSL3 laboratory design, operational and technical training, and operations, logistics, and technical management. Employing more than 700 professionals, SoBran maintains corporate offices in Dayton, OH and Fairfax, VA, and field offices in more than a dozen other locations across the nation. Our clients represent a myriad of service sectors including national defense, homeland security, public health, energy policy, and environmental science, and while our projects may vary, we are consistently dedicated to uncompromising quality and unparalleled customer service. SoBran is recognized by *Inc Magazine* as one of the nation's fastest-growing private companies, and has been ranked in the top 100 companies in *Black Enterprise Magazine's* Industrial/Service category.

Founded in 1955, ASIS International is the preeminent organization for security professionals. "Our presence at the ASIS conference is a barometer of our success in this most demanding field," said Amos Otis, SoBran's CEO and founder. "We're honored to be a part of it, and grateful for the customers who make it possible for us to work side-by-side with the best and brightest, year after year."

SoBran provides technical support services for the Departments of Homeland Security, Defense, and Health and Human Services, as well as all of the Armed Forces. Recent corporate highlights include winning multi-million dollar contracts from the United States Air Force, National Institutes of Health (NIH), University of Texas Southwestern, and the Social Security Administration.
