## Convergence of Enterprise Security Organizations

The further convergence of security-related responsibilities and the increasing complexities of the nature of security, in conjunction with the expansion of the enterprise globally, demand more than ever a cross-disciplinary approach to addressing today's challenges facing security executives. Hear a panel of experts from the Alliance for Enterprise Security Risk Management (AESRM) discuss the results of a recent survey and white paper on the value of security convergence and use of risk councils in the context of enterprise risk management, as well as barriers and enablers for success.

## Security Insights Program: Security's Role in Business Ethics and Compliance

Enron's meteoric rise and even more meteoric collapse revealed a watchdog system that failed. However, even back in the 1990s, more than 400 corporations had dramatically restated their value after accounting lapses, failures, or fraud. Where was security while all of this was happening?

Congressman **Michael G. Oxley** will moderate a knowledgeable panel of experts as they explore ethics and business compliance and discuss the added value security professionals can bring to corporate compliance and governance structures.

**12:00 noon–2:00 pm**

## Closing Luncheon/Closing Ceremony with Christopher Gardner

*A Rags to Riches Story—From Homelessness to Wall Street.* Gardner, a passionate philanthropist and owner/CEO of an international brokerage firm, will share his amazing story that has taken him from rags to riches as depicted in the recent movie, *The Pursuit of Happyness*.
