

**- X -**

**x-band** - a radio frequency communications band in the 5200 to 11,000 MHZ range.

**x-ray** -

**x-ray bomb** - a bomb triggered to explode when exposed to x-rays.

**x-ray examination** - an examination of an object by placing it in the chamber of an x-ray machine. A viewing plate on the machine displays the object's inner construction, thereby permitting the machine operator to evaluate the nature of the object.

**x-ray system** - a device or system that inspects the contents of a package or container for concealed explosives or contraband.

**REFERENCE NOTE**
