

*ASIS proudly congratulates the thousands of professionals who have sought and attained the CPP—the profession's highest recognition.*

## True dedication to the security profession.

**Edward P. De Lise, CPP**  
President, OutSource Consultants, Inc.  
Security Consulting Group

**Industry:** Consulting & Investigations

**Education:** AAS Police Science & Administration; BS Criminal Justice

**Years in Security:** 34

**Year Earned CPP:** 1986

**Year Joined ASIS:** 1979

**Why I Pursued the CPP:** "My personal objective is to achieve the highest accreditation available in the security industry. Much more than a designation, the CPP is a conduit to professional relationships with peers who share the same drive in becoming the best in the security profession."

**Value of the CPP:** "This designation brings an obligation of continual involvement in the most current standards and best practices in the profession. It allows for personal and professional enhancement and the opportunity to network with other professionals sharing the same goals and facing the same industry challenges. Our industry has changed radically in the past year. Our clients deserve no less than the best our profession can offer. This board-certified designation has become a benchmark for the true security professional."

**Why Security Professionals Pursue the CPP Designation:** "I feel strongly that a security professional who is serious about their career path, personal, and professional development and industry contribution would find it quite difficult not to take advantage of the international recognition that board certification offers."

**Achievements:** Mr. De Lise has been actively participating in ASIS for 23 years. He has served on a multitude of committees, focus groups, and task forces at the national level, including the Private Security Services Council as both Secretary and Vice Chairman and the Utilities Security Council as Secretary and Vice Chairman. He currently serves as Chairman of the Investigations Certification Task force of the Professional Certification Board. In his extensive career, his responsibilities have included those of corporate staff and regional management with major international security, consulting and investigations corporations, as well as founder and CEO of two privately-held consulting and investigation firms.
