Why I Support the CPP: “As an ASIS volunteer, I soon realized the importance of the CPP credential, and how it could benefit even someone like me who'd been in the business for 20 years. The exam preparation was invaluable. It allowed me to review a range of subjects and identify good references for all the best practices I had acquired over the years.”

How the CPP Benefits Me: “As one of the leading recruitment consultancies, we need to provide our clients' human resource practitioners with sound advice on suitable applicants and their development potential. The CPP credential is the benchmark of a manager who is focused on the broad commercial disciplines of profit protection and loss prevention. When potential clients see the CPP, it gives them confidence in my level of knowledge and professionalism.”

Why Security Professionals Pursue the CPP Designation: “As an international member, I appreciate that the worldwide community of security professionals has accepted standards. As a re-certifiable qualification, the CPP is proof that the holder remains committed to furthering the aims of the profession and adhering to a strict code of ethics.”
