

## **Biography**

### **John Bekisz, Jr., PSP**

Security Engineer, Sentinel Consulting, LLC

John Bekisz, Jr., PSP is responsible for the design and engineering of electronic and physical security countermeasures including, but not limited to access control systems, video surveillance systems, command centers, and risk management and analysis. Providing clients with risk assessments, training, security master planning, and development of security guidelines and requirements, as well as dictating to construction project teams the security requirements for all involved trades, John is involved in every aspect of Sentinel Consulting's portfolio of security-focused products.

John is certified by ASIS International as a Physical Security Professional (PSP). He is an active member of the ASIS Westchester Chapter and serves on the ASIS Young Professionals Council and the ASIS Physical Security Council.
