

<b>Wednesday, 6 April</b>	
19:00–22:30	<b>WELCOME PARTY POWERED BY NEDAP at The Leadenhall Building</b>
<b>Thursday, 7 April</b>	
09:00–10:00	<b>OPENING SESSION &amp; KEYNOTE SPEAKER</b> Mark Rowley, Assistant Commissioner for Specialist Operations, Metropolitan Police Service, UK
10:00–10:30	<b>EXHIBITION &amp; NETWORKING TIME</b>
	<p><b>1 Panel Discussion: Securing the Internet of Security Things</b> Moderator: Erik de Vries CPP, Regional Vice President, ASIS International, Netherlands Sieger Volkers, Managing Director Security Management, Nedap, Netherlands Philip Hoyer, Director Strategic Solutions – Strategic Innovation team, HID Global, UK Atul Rajput, Regional Director, Northern Europe, Axis Communications, UK</p>
10:30–11:20	<p><b>2 Vulnerable to Global Shifts? How Prepared Are You for Future Trends</b> Dr. Nicolas Le Saux CPP, CEO, ATAO Consulting, France Bruce McIndoe, CEO, iJET, USA Immigration, cyber-attacks, slowing economies, megacities, food and water shortage ... academic research and experts forecast the next 15 years and highlight how to mitigate and respond to impending risks.</p>
	<p><b>3 Security Systems as Leverage of Assurance on your Business</b> Genséric Cantournet, CSO, Radiotelevisione Italiana, Italy Angela Pietrantoni, CEO, Scienze per la Sicurezza Consulting, Italy The concept of security system is the economic leverage for business development. This reflection derived from a number of practical suggestions and business results.</p>
	<p><b>4 The Role of Businesses in Mitigating Terrorist Threats</b> Juliet McKane, Worldwide Safety and Security Senior Manager, Dassault Systemes UK Ltd, UK More information on page 10.</p>

10:30–11:20	Room H	<p><b>5A 10:30–10:50 Integrating Chemical, Biological, or Radiological Resilience into Physical Security Design</b> Dan Kaszeta, Managing Director, Strongpoint Security Ltd, UK This presentation includes both conventional and innovative ways in which chemical, biological, and radiological resilience can be incorporated into physical security at buildings and facilities.</p> <p><b>5B 11:00–11:20 New &amp; Emerging Identification Methods in Access Control</b> Paul Adams, Head of Technology &amp; Product Management, Kaba, UK Paul will explore the world of 'access control' with a real focus on technology, multi-media, its application and how the market requirements are changing.</p>
	Auditorium	<p><b>6 Jihadi Terrorism in Europe 2016–2017</b> Glenn Schoen, CEO, Boardroom@Crisis, Netherlands This presentation focuses on current and future Jihadi terrorist activity in Europe with the aim of giving security managers practicable insight to better secure their organization in the year ahead.</p>
	Room A	<p><b>7 Data Loss Prevention Software – What Is It and Can It Help?</b> Jonathan Nicholas, Information Security Officer, General Dynamics European Land Systems, Switzerland This paper gives practical information based on a recent implementation of a DLP system for protecting sensitive data. We will describe how we implemented it and how it worked.</p>
11:25–12:15	Room E–F	<p><b>8 Making the Security Profession a First Choice Career for Young, Talented, Intelligent Individuals</b> Moderators: Nicole Thissen, Security Expert, Deutsche Telekom AG, Germany, &amp; Alexander T. Zippel CPP, Senior Security Expert, Deutsche Post DHL Group, Germany Ben Suurd, Senior Security Advisor, Lares Integrated Security, Netherlands James A. Butler, Managing Director, SMR Group, UK Juan Muñoz CPP, CEO, Associated Projects International, Spain Patrick Hennies, Chief Security Officer, Henkel Group, Germany This panel will examine the paths open to those seeking a career in the security profession and the support the ASIS International Young Professionals programme can offer. It will also discuss how those at the top can put into place programmes to encourage and support YPs on their way up.</p>

Room B-C	<p><b>9 Securing Properties in City Centre Locations</b> David Clark CPP, PCI, PSP, Head of Security, <i>The Francis Crick Institute, UK</i></p> <p>David Bilson CPP, Head of Security and Visitor Services, <i>The British Museum, UK</i></p> <p>William Lyle, Head of Security, <i>King's College London, UK</i></p> <p>More information on page 10.</p>
11:25-12:15 Room H Technology & Solutions Track	<p><b>10A 11:25-11:45 Intelligent Anti-Tailgating: The Missing Link in Access Control</b> Fabrice Moscheni, Managing Director, <i>FASTCOM Technology SA, Switzerland</i></p> <p>SWACS solutions for multi-flow anti-tailgating – how to manage simultaneously the security of different flows such as people, handicapped people, luggage and material, while integrating seamlessly in the existing infrastructure?</p>
12:15-13:30	<p><b>10B 11:50-12:10 Intelligent Security: Using Technology to Make Smarter Security Decisions</b> Craig Robb, Director – Strategic Development, <i>Securitas, UK</i></p> <p>Developing greater business intelligence by harnessing the big data gathered through increasingly sophisticated and innovative security technology to provide insights that influence key business decisions.</p>
<b>LUNCH, EXHIBITION &amp; NETWORKING TIME</b>	
Auditorium	<p><b>11 Cyber Security Awareness: Challenges and Solutions</b> Prof. Dr. Fadi Aloul, Professor of Computer Science &amp; Engineering, Director of the HP Institute, <i>American University of Sharjah, UAE</i></p> <p>Users today are the weakest link in any organisation. We will examine the latest cyber threats against human users. Explain who is behind them and why. Show how to effectively assess and spread the security awareness among the users.</p>
13:30-14:20 Room A	<p><b>12 Talking Turkey – what's in store for where East meets West</b> Andy Williams CPP, Senior Partner, <i>Temi Group, Turkey</i></p> <p>How the impact of ISIS, Syria proxy war, the PKK, Russian sanctions and migrants on Turkey is shaping the future of Europe and strength of the EU.</p>
Room E-F	<p><b>13 New Directions in Open Source Intelligence</b> Jason Brown, National Security Director, <i>Thales, Australia</i></p> <p>Advanced technologies and new ways of thinking have changed intelligence collection. The presentation will consider an advanced intelligence model in the context of open source data on a global scale.</p>

Room B-C	<p><b>14 Duty of Care: Where Did It Come from, Where Is It Going?</b> Mike Croll CPP, Security Specialist, <i>Public Sector Security, UK</i></p> <p>Duty of Care is now a common concept in security risk management. This is a sideways look at how it developed and where it is heading.</p>
13:30-14:20 Room H Technology & Solutions Track	<p><b>15A 13:00-13:50 Manageability of data in a hyper-connected world – how to safeguard and structure video surveillance data in practice</b> Robert Verhulst, Business Development Manager EMEA, <i>Bosch Security Systems, Netherlands</i></p> <p>In today's connected world – where edge cameras send data to core components (servers) over the Internet – requires a hyper-vigilant approach to data security. Bosch focuses on that for years covering all elements.</p>
Executive Centre	<p><b>15B 13:50-14:10 The Enterprise Immune System: Using Machine Learning to Detect 'Unknown Unknown'</b> John Dyer, Account Director, <i>Darktrace, UK</i></p> <p>Hear about the innovative 'immune system' technologies using machine learning and advanced mathematics to detect advanced cyber threats, and learn how to investigate emerging anomalies in real time.</p>
Auditorium	<p><b>ASIS Councils Workshop</b></p>
14:25-15:15 Room A	<p><b>16 The Internet of Things: Security and Privacy Implications</b> Radek Havlis CPP, VP Security Cooperation, <i>Deutsche Telekom AG, Germany</i></p> <p>Serving as an eye-opener, this presentation's aim is to provide an overview about the technological concept of the Internet of Things and to address related security and privacy implications.</p>
	<p><b>17 Building an Integrated Security Risk Management Function</b> Saving Regulatory Capital Dr. Thomas Stubbings, Cybersecurity Representative of RBI Board, <i>Raiffeisen Bank International AG, Austria</i></p> <p>Integrating security functions (Information Security, Physical Security &amp; BCM) is just the first step. Advanced regulatory requirements demand the next step of integrating security functions with operational risk management and ICS.</p>

Room E-F	<p><b>18 The Importance of Vendor and End User Engagement in Meeting Corporate Security Challenges</b>  <b>Kenneth Rohnert</b>, Senior Investigations Operations Manager, <i>Adidas Group, Germany</i>  <b>Andy Martin</b>, Retail, Business Development Manager, <i>Axis Communications, UK</i></p> <p>The presentation discusses the engagement strategy taken to a collaborative approach to partnership between end users and vendors, highlight the importance of sharing best practice and industry trends.</p>
Room B-C	<p><b>19 Caveat Viatori – the Risks Facing Business Travellers and Their Employers</b>  <b>Rob Newman CPP</b>, Senior Group Security Assessor, <i>Johnson Matthey PLC, UK</i></p> <p>Despite various global economic pressures and downturns, appetite for business travel has been relatively unaffected. This presentation will explore the plethora of risks facing business travellers and their employers.</p>
Room H Technology & Solutions Track	<p><b>20A 14:25 – 14:45 Integrated Value Added Solutions for Hotel Security</b>  <b>Jeroen Molle</b>, Head of International Customer Service, <i>Geutebrück, Germany</i></p> <p>How could hotels add value to their services and at the same time reduce their security costs? Jeroen Molle, GEUTEBRÜCK, will present opportunities of enhancing security and services by combining multiple security systems.</p> <p><b>20B 14:50 – 15:10 Taking Measures Against Cyber Security-Attacks, who is Responsible?</b>  <b>Daryn Flynn</b>, Security Business Manager, <i>Nedap, UK</i></p> <p>Convergence has been a trend for 15 years asking IT and physical security to cooperate. But who is responsible for the security of the security system itself?</p>
15:15–15:45	<p align="center"><b>EXHIBITION &amp; NETWORKING TIME</b></p>
Auditorium	<p><b>21 The Insider Threat and the Employment Lifecycle</b>  <b>Martin Smith</b>, Chairman and Founder, <i>The Security Company, UK</i></p> <p>How security should influence the various stages of the employment lifecycle; recruitment, vetting, onboarding, supervision, security awareness, disciplinary procedures, termination of employment, and the integrity of suppliers.</p>

Room A	<p><b>22 People, Processes, IT – Essential Enterprise Security Risk Management (ESRM) Principles and Practices for an Integrated Approach to Business Risk in the Age of the Internet of Things</b>  <b>Volker Wagner</b>, Senior Vice President, <i>Deutsche Telekom AG, Germany</i>  <b>John Petruzzi CPP</b>, VP, Enterprise Security Operations, <i>Time Warner Cable, USA</i>  <b>Brian Allen CPP</b>, Chief Security Officer, <i>Time Warner Cable, USA</i>  <b>James Willison</b>, Founder, <i>Unified Security Ltd, UK</i></p> <p>People, processes, IT – essential Enterprise Security Risk Management (ESRM) principles and practices for an integrated approach. A series of case studies will review the roadmap to a unified security approach.</p>
Room E-F	<p><b>23 An Approach to Global Supply Chain Security in the Pharmaceutical Industry</b>  <b>Tom Cochrane</b>, Head of Security Operations, <i>Mundipharma International Ltd, UK</i></p> <p>The presentation demonstrates how a company set up a security management system to protect products from theft, counterfeit, extreme temperatures and the company from bribery and corruption across the world.</p>
Room B-C	<p><b>24 Risks and Challenges of Securing a Dedicated Scientific Research Facility in Central London</b>  <b>David Clark CPP, PCI, PSP</b>, Head of Security, <i>The Francis Crick Institute, UK</i></p> <p>UK has seen the growth in tactics targeting not just the research organisations but their staff, secondary and tertiary targets. We have also seen the growth in the use of extremist tactics worldwide and in particular mainland Europe and the US, which are then employed here in the UK.</p>
Room H Technology & Solutions Track	<p><b>25A 15:45-16:05 Presentation of ASIS/HID Study on Access Control and Contactless Smart Card Technology</b></p> <p>In March 2016, ASIS and HID conducted a survey among European security professionals to identify the level of understanding of access control and contactless smart card technology. Questions focused on the differences between 125 kHz cards and 13.56 MHz cards, understanding of the protection of the Card Serial Number (CSN or UID) and use of credentialing technology. The outcomes of the study will help security professionals improve their performance where necessary.</p>
15:45–16:35	<p><b>25B 16:10-16:30 Cynet Security, Think Like a Hacker, React Like a CISO</b>  <b>David Leichner</b>, Vice President, <i>Cynet, Israel</i></p> <p>Cyber attacks are on the rise – protect your organization by understanding the hacker. We will share insights and best practices during 'Think Like a Hacker. React Like a CISO'.</p>

	Auditorium	<p><b>26 The True Value of Security, and Why It Has Been Undersold</b>  <b>Prof. Martin Gill, Director, Perpetuity Research, UK</b>          In this presentation Martin argues that the true value of security has not been properly articulated, and its real contribution is being kept a secret, somewhat undermining its effectiveness.</p>	16:40–17:30
	Room A	<p><b>27 Dealing with Insider Threat from Radicalisation: “Employees Gone Rogue”</b>  <b>Werner Cooreman CPP, PSP, Vice President, Security Express Europe – DHL, Germany</b>          The presentation will focus on the insider threat posed by radicalisation, and explores the difficulties organisations face in dealing with this risk, whilst discussing possible avenues of approach for mitigation.</p>	
	Room E–F	<p><b>28 Security Management in the Former Soviet Union – Threat Navigation for Multinationals</b>  <b>Dmitry Budanov, CEO, Elite Security Holding Company, Russia</b>  <b>Tim Bobak, Senior Consultant, Elite Security Holding Company, Russia</b>          An overview of CIS security management, including an analysis of specific local threats and the broader security challenges to EU businesses operating in the former Soviet Union.</p>	
	Room B–C	<p><b>29 Combating Human Trafficking in the Hotel Sector</b>  <b>Prof. Alexandros Paraskevas, Professor in Strategic Risk Management, University of West London (ICHARM), UK</b>  <b>Angela Roper, Professor in International Strategy and Director of the Research Centre, University of West London (ICHARM), UK</b>          Where is the hospitality sector most vulnerable and exposed to human trafficking? How can trafficked victims be detected, rescued and survivors rehabilitated? How can we more effectively prosecute traffickers?</p>	
	Room H Technology & Solutions Track	<p><b>30 Paris Terrorist Attacks and the use of Global Tracking Solutions</b>  <b>Peter Cooper, Regional Security Manager, International SOS and Control Risks, UK</b>  <b>Colin Dale, Business Development Director, Vismo, UK</b>          Paris Terrorist Attacks: How organisations used Active Monitoring and Global Tracking Apps on their International Traveller’s smartphones to pinpoint their locations during the attacks and give appropriate advice.</p>	
		<p><b>30b Do you view an investigation as a risk worth mitigating?</b>  <b>Shaun Reardon, International Project Manager, One Voice AS, Norway</b>          With the global rise in cybercrime, there exists a risk that your organisation’s IT infrastructure will feature in a criminal investigation. The risks and control measures are examined.</p>	

17:35–18:30	Room B–C	<p><b>ASIS Members Forum</b></p>	
19:30–21:30		<p><b>PRESIDENT’S RECEPTION in the Egyptian Gallery of the British Museum – Sponsored by TYCO Integrated Fire &amp; Security</b></p>	
<b>Friday, 8 April</b>			
09:00–10:00	Auditorium	<p><b>OPENING REMARKS &amp; KEYNOTE SPEAKER</b>  <b>Juan Carlos Pastor, PhD, Professor of Organisational Behaviour, IE Business School, Spain</b></p>	
10:00–10:30		<p><b>EXHIBITION &amp; NETWORKING TIME</b></p>	
10:30–11:20	Auditorium	<p><b>31 Panel Debate – Low Margins in the Manned Guarding Sector: a Problem with a Solution?</b>  <b>Moderator: Prof. Martin Gill, Director, Perpetuity Research, UK</b>  <b>Claude Tarlet, President of the Private Security Companies Union, and of the National Alliance of Private Security Activities and Vice President of European Confederation of Security Services, France</b>  <b>Dirk Buerhaus, Managing Director &amp; Director International Accounts, Koetter Security, Germany</b>  <b>Barrie Millett, Head of HSSE &amp; Resilience, E.ON, UK</b>          The presence of low margins in the manned guarding sector is a common lament across Europe, and indeed across the world. This has manifested itself in guarding being considered a poorly paid, limited skills job – a last resort career choice.          Contrast this with the reality that guard functions are key elements in security operations, are often the most visible element of private security and are the one that clients, customers and the general public personally interact with, and the issue is clear – we are dealing with a challenge to the public perception of the entire security profession.          So where might the solutions be found? Is it a case of better or different regulation; better understanding of the economics of demand and supply; more emphasis on the value proposition (and if so what form should this take?); educating buyers (but about what issues precisely)? In the short term are there better ways of coping with low margins? Where might we look for good examples and what do they teach us? These are just some of the issues that will be addressed in this interactive discussion.</p>	
	Room A	<p><b>32 Savings on Security Do Not Equal Profits – How to Convince your Board</b>  <b>Lynn de Vries CPP, Partner, DutchRisk, Netherlands</b>          This presentation outlines why security cost reductions don't lead to profit increase. Monitoring security performance in terms of cost/benefit enables your security 'marketing' and thus avoid blunt cost cutting decisions.</p>	

Room E-F	<p><b>33 Cyber Crime, Terrorism, Fraud: How Partnerships Can Assist in the Prevention and Detection</b> Don Randall, CEO, <i>Don Randall Associates Limited, UK</i> A current overview of the criminal areas and examples of real-time, proven public/private partnerships.</p>
10:30-11:20	<p><b>34 Europe in a Time of Change and Crisis: Insights from European CSOs</b> David Clark CPP, PCI, PSP, Head of Security, <i>The Francis Crick Institute, UK</i> Mike Croll CPP, Security Specialist, <i>Public Sector Security, UK</i> Dr. Thomas Stubbings, Cybersecurity Representative of RBI Board, <i>Raiffeisen Bank International AG, Austria</i> Volker Wagner, Senior Vice President, <i>Deutsche Telekom AG, Germany</i> More information on page 10.</p>
Room H Technology & Solutions Track	<p><b>35 Classroom Programme: Preparing for Active Shooter/MTFA Attacks (Part 1)</b> Craig S. Gundry PSP, Director of Special Projects, <i>S2 Safety &amp; Intelligence Institute, USA</i> More information on page 11.</p>
Auditorium	<p><b>36 Psychopaths in the Corporate World – Nightmare Dressed like a Daydream</b> Totti Karpela, Director, <i>Peace of Mind Threat Management Company Ltd, Hong Kong</i> Psychopaths; skillful manipulators, people with no remorse, guilt or empathy yet charming and fearless, emotionally indifferent people, who are so attractive in some ways and so appalling in others.</p>
11:25-12:15	<p><b>37 From Value Creation to Value Destruction: Dangers in Managing Your Security Supplier</b> Stéphanie Bergouignan CPP, Partner, <i>ATAO Consulting, France</i> Working with a security supplier is often a costly and challenging relationship. How to make the most of your investment and avoid the traps that lead to value destruction?</p>
Room E-F	<p><b>38 Coping with Shock and Stress. What Part Does Organisational Resilience Play?</b> Robert Hall, Director of Security &amp; Resilience Network, <i>London First, UK</i> As organisational resilience has become a prominent and pertinent managerial topic, it is important to appreciate what it means for businesses when dealing with either sudden crisis or prolonged changes.</p>

11:25-12:15	<p><b>39 Europe in a Time of Change and Crisis: Insights from European CSOs</b> David Clark CPP, PCI, PSP, Head of Security, <i>The Francis Crick Institute, UK</i> Mike Croll CPP, Security Specialist, <i>Public Sector Security, UK</i> Dr. Thomas Stubbings, Cybersecurity Representative of RBI Board, <i>Raiffeisen Bank International AG, Austria</i> Volker Wagner, Senior Vice President, <i>Deutsche Telekom AG, Germany</i> More information on page 10.</p>	Room B-C
12:15-13:30	<p><b>40 Classroom Programme: Preparing for Active Shooter/MTFA Attacks (Part 2 until 12:30)</b> Craig S. Gundry, PSP, Director of Special Projects, <i>S2 Safety &amp; Intelligence Institute, USA</i> More information on page 11.</p>	Room H Technology & Solutions Track
<b>LUNCH, EXHIBITION &amp; NETWORKING TIME</b>		
	<p><b>41 How Far Will Islamic State Get?</b> Tim Williams, Managing Director, <i>Stirling Assynt, UK</i> Conflict in Syria, instability across North Africa and sectarian tensions throughout the Middle East have allowed Islamic State to expand rapidly – but are there limits to what it can achieve?</p>	Auditorium
	<p><b>42 (Cyber) Security: Where &amp; How Does It Fit in an Enterprise's Value-Chain?</b> Alan Jenkins, MD &amp; Principal Consultant, <i>Cyber Security Pilotage Ltd, UK</i> When making the business case for security, managers need to articulate the resultant value-add. The emphasis should be on security's contribution across the 'Value-Chain', a concept core to MBA programmes.</p>	Room A
13:30-14:20	<p><b>43 The Security Manager vs the Invisible Shark</b> Ken Livingstone, Director of Training, <i>Linx International Group, UK</i> Exploring the relationship between risk, risk perception, and risk communication, and the dependence on human/cultural elements, using the film <i>Jaws</i> to show why security managers need to beware 'invisible sharks'.</p>	Room E-F
	<p><b>44 Location, Vocation, Relaxation the Data Dripfeed Revealing your Every Move</b> Ken Munro, Senior Partner, <i>Pen Test Partners, UK</i> What are your devices saying about you? Data leakage is a growing problem with our behavioural patterns and usage habits captured over mobile, cloud, and now the Internet of Things.</p>	Room B-C

13:30–14:30	Room H	<p><b>45A Classroom Programme: Preparing for Active Shooter/MTFA Attacks (Part 3 until 14:30)</b>  <b>Craig S. Gundfry, PSP, Director of Special Projects, S2 Safety &amp; Intelligence Institute, USA</b>  More information on page 11.</p> <p><b>46 Organisational Resilience – A Buzz Phrase or the Future of Effective Joined Up Risk Management</b>  <b>Barrie Millett, Head of HSSE &amp; Resilience, E.ON, UK</b>  Experiences used to explore opportunities Governments and Organisations have to ensure Organisational Resilience is approached differently, demonstrating how improving the resilience builds and protects social and economic value for all.</p> <p><b>47 From Big Data to Rich Data: How Data Analytics Add Value to Security Risk Management</b>  <b>Rainer Rex, Head of Corporate Security, Henkel Group, Germany</b>  <b>Patrick Hennies, Chief Security Officer, Henkel Group, Germany</b>  Security Managers receive thousands of alerts, incident reports and risk analyses every day. This session explains how to ensure a risk-based Security Management facing this complexity without compromise.</p> <p><b>48 HR in Security: Commit to a Higher Standard</b>  <b>Alanood Alrabiah, Project Lead, Saudi Aramco, Saudi Arabia</b>  This presentation highlights the role of Human Resources in the transformation of security profession to achieve higher standards.</p> <p><b>49 The Modern Surveillance Threat: Examination of Traditional, New &amp; Emerging Threats Faced by Modern Business</b>  <b>Jason Dibley, Technical Director, QCC Global Ltd, UK</b>  An educational and informative examination of modern surveillance and espionage techniques. Using real examples and extensive knowledge to study ways equipment, communications &amp; techniques are used to attack modern business.</p>
14:25–15:15	Room E–F	<p><b>50A 14:30–14:50</b>  <b>Presentation by Expert Systems</b></p> <p><b>50B 14:50–15:10</b>  <b>Why Mobile Security matters ...</b>  <b>Andrew Lau, Senior investigator and casework lead for mobile devices, LGC, UK</b>  <b>David Quoroll, Mobile device research &amp; development specialist, LGC, UK</b>  This presentation looks at the growing ease 'have a go hackers' and cyber criminals have at their fingertips today and offers an alternative perspective on mobile security defence against known and unknown mobile device vulnerabilities and threats.</p>
	Room B–C	

14:25–15:15	Executive Centre	<p><b>Women in Security Europe Meeting</b>  Women in Security European strategy will be discussed and shared in order to best adapt it to the needs of its members and increase its efficiency and impact.</p>
15:15–15:45		<p><b>EXHIBITION &amp; NETWORKING TIME</b></p>
	Auditorium	<p><b>51 Managing Risk Ethically</b>  <b>Kevin Macnish, Teaching Fellow and Consultant, University of Leeds, UK</b>  This talk will address issues surrounding understanding risk and the ethical aspects involved in making decisions regarding risk.</p>
	Room A	<p><b>52 Insider Threat and Business Culture</b>  <b>Mike Gillespie, MD / Director of Cyber Strategy &amp; Research, Advent IM / The Security Institute, UK</b>  <b>Ellie Hurst, Media &amp; Communications Manager, Advent IM, UK</b>  Insider threat may be employees, ex-employees, contractors, even board members. A discussion on how we mitigate the risk from our insiders whilst leveraging them as our greatest security ally.</p>
15:45–16:35	Room E–F	<p><b>53 Utilising Nudge Theory and Behavioural Economics to Enhance Personal Development and Influence Decision Making</b>  <b>Mike Hurst, Managing Director, HJA Fire and Security, UK</b>  <b>Graham Bassett, Managing Director, GBR UK, UK</b>  In this presentation we will be discussing how Nudge Theory can aid an individual's career and personal development and influence decision making on security issues.</p>
	Room B–C	<p><b>54 Security Operations from a Business Perspective</b>  <b>Dr. Marc Siegel, Commissioner, Global Standards Initiative, ASIS International, Belgium</b>  Why use the ANSI and ISO standards for managing security operations? First enterprise risk management system standards. Proven liability protection. A differentiator in contracting. Enhanced business management. More opportunities.</p>
16:40–17:30	Auditorium	<p><b>KEYNOTE SPEAKER &amp; CLOSING SESSION</b>  <b>Aimen Dean, "The Spy Who Came in from Al Qaeda"</b></p>
19:15–21:30		<p><b>CLOSING RECEPTION HOSTED BY THE ASIS UK CHAPTER at the Cholmondeley Room &amp; Terrace of the House of Lords – Sponsored by Axis Communications</b></p>
