# SAMI A. AL-AJMI

## CPP

Mr. Sami A. Al-Ajmi holds a BS Degree in Computer Engineering from Capitol University Laurel, MD and a MS Degree in Telecommunication Engineering from the University of Colorado, Boulder.

Mr. Al-Ajmi has over 25 years of experience in the security field including Project Management, Security Program Development, PSIM & Critical Infrastructure Protection. Currently he is the Manager, Saudi Aramco's Industrial Security Support Department.

He is a Certified Protection Professional (CPP), and former Chapter Chairman of ASIS Chapter 72 Dhahran.

# DAVID MOORE

## PE, CSP

David Moore is the President & CEO of the AcuTech Consulting Group. Mr. Moore has over 35 years of experience and is as a leading security and process safety management consultant to global corporations. AcuTech was the lead author of the ANSI/API Standard 780 “Security Risk Assessment Methodology for the Petroleum and Petrochemical Industries” and the CCPS® “Guidelines for Security Vulnerability Analysis for Fixed Chemical Facilities”.

He is a recognized expert in and frequent speaker on risk assessment for security. He also was the project manager for the initial development of the Chemical Facility Anti-terrorism Standards (CFATS) as a prime contractor to DHS.

# JEAN PEROIS

## CPP, PCI, PSP

Jean Perois, CPP, PCI, PSP is a seasoned professional with a varied experience in the GCC where he has been operating in professional and managerial capacities for the last ten years.

Jean's experience in the GCC started in Qatar, where he was Director of Security for Dolphin Energy and used predecessor API methodology and performed SVA's on Dolphin Energy facilities in Ras Laffan.

Since 2009, he has been a full time consultant performing dozens of SVA's for major Saudi industries in KSA which have been successfully approved by HCIS and in 2014 has started to apply the new API 780 methodology to conducting SRA's.
