Academic Institutions Offering Degrees, Concentrations, or Certificates in Security Management

Inclusion in this Academic Programs Directory on the ASIS website does not constitute an endorsement by ASIS International of the program or institution which offers it. Nor does it indicate that the quality or credibility of the academic program or institution has been thoroughly evaluated. Furthermore, the fact that an institution is listed on the website does not constitute a partnership or other affiliation between that institution and ASIS International.

This directory compiled by ASIS librarians, with the assistance of members of the ASIS Academic and Training Programs Council, includes accredited colleges and universities which offer a security management degree or concentration within another degree program. It excludes homeland security; information security, assurance, and cybersecurity; crisis/disaster management or emergency planning; homeland security; criminal justice; and similar others -- unless there is a security management concentration or major within those departments. Institutions offering only one or two security management courses are not included in this directory.

We rely on ASIS members to inform us about new security management programs or degrees, whether offered in traditional classroom, online (e-learning) environments or both (blended or hybrid). To assist us in our efforts to make this list as comprehensive and accurate as possible, please e-mail to the IRC (mailto:info@asisonline.org) any updates, additions, or changes to these listings if you discover any omissions, errors or simply a broken link.

For general information on accreditation for institutions of higher education, contact the Council for Higher Education Accreditation at Tel: 202.955.6126 or Email: http://www.chea.org/

Note: this directory is available online on the ASIS website. Navigate to the Academic & Student Center, to the Academic and Training Programs Council, or the Library (IRC) Subject Guides (members only) at https://www.asisonline.org/Membership/Library/Subject-Guides/Pages/default.aspx
