

# Security Insights Program and Perspectives on Security

## 57<sup>th</sup> ASIS International Annual Seminar, 2011

### The CSO in the Future

Explore the industry 10+ years into the future with experts from across the security community engaging on key topics. Understand the key technology and security trends driving business and the industry that are likely to have an effect on the leaders of the future. Hear from a panel including chief security officers and representatives of the information security and technology communities as they discuss the trends and impacts of what professionals will face in the next decade.

*Recorded at the 57th Annual Seminar in Orlando, Florida, on September 22, 2011.  
Format: DVD; approx. 1 hour 20 minutes. [ASIS Store Item #1971](#)*

### Security and the Social Networks: Security Insights Program

As a relatively new phenomenon on the security landscape, social networks operate on many levels, from individuals to nations. Their effectiveness and efficiency have not escaped the forces that would abuse them. For security professionals, social media presents a new set of challenges. A discussion of the issues and possible solutions was led by former ASIS President Mike Cummings, accompanied by a panel of experts.

*Recorded at the 57th Annual Seminar in Orlando, Florida, on September 22, 2011.  
Format: DVD; approx. 1 hour 20 minutes. [ASIS Store Item #1970](#)*

### The New Workplace Violence: Perspectives on Security

Violence in the workplace continues to make news headlines and is a vital concern to Security, Human Resources, and Management across all industries. Threats, verbal abuse, physical assault, and homicide in the workplace affect two million workers annually in the U.S. alone. The use of the Internet as a means to promote violence through the delivery of threats, as well as the implications and impact of social media are evolving factors that also need to be understood. The panel examined the issues and the latest information on assessment, prevention, and mitigation of this growing threat.
