## Security Database & Library Catalog

Navigate to the Security Database & Library Catalog powered by EOS International®.

[Search Library](#)

When you reach the catalog landing page, just start searching! Sign-in is only required to take advantage of the advanced features of the catalog, such as saving lists of your search results.

### Search Tips:

- To search for a particular phrase, use quotation marks around the phrase.
- Try using an asterisk (\*) as a wildcard to indicate multiple endings to a word. For example, if you type in "health\*" you'll see results with both "health" and "healthcare" highlighted in the catalog records.
- To search for *Security Management* articles, use the "Search Options" feature to limit your search to those records belonging to the "Security Management (magazine index)" collection.
- To search for Annual Seminar Educational Sessions, use the "Search Options" feature to limit your search to those records belonging to the "ASIS seminar sessions" collection. The "ASIS seminar sessions" collection is comprised of sessions from 1982

Members-only security resources recently migrated to this new library system. ASIS Seminar Management index are now included in this database (catalog...)  
If you need assistance using this new site, please do not hesitate to contact us at [info@asisonline.org](mailto:info@asisonline.org) or phone 703.518.1471.

Note: if you notice any discrepancies, we would appreciate your bringing them to our attention for correction. Not all features and functions are yet enabled and we will be adding these throughout the year. We will also create online tutorials to assist you. We hope you like this new library system.

Please note that the library will be closed on Monday, April 7, 2014..
