Professional Employment

Chief Security Officer
Solvay
Rue de Ransbeek 310
1120 Brussels
BELGIUM
+ 3222641031

My responsibilities cover:

Developing Solvay's security risk strategies, policies and standards, and ensuring compliance thereof with local and international laws;

Submitting developed policies, together with implementation plans, for validation by the Security Board and, where appropriate, by COMEX;

Promoting understanding of requirements and expectations in GBUs and functions and work collaboratively to agree implementation plans and in so doing ensure that appropriate resources both financial and human are mobilized;

Ensuring periodic internal audits are undertaken to assess both degree of adherence to Group standards and effectiveness of measures that are in place;

Ensuring that Solvay's security risk strategies, policies and standards are adjusted to changes in threat landscape;

Ensuring that learnings and opportunities for improvement have the appropriate visibility and follow up by GBU- and function leader

ISMA - Member of the Board Nomination Committee (2021)

Based on the 2020-2024 ASIS International Strategic Framework, What Two Goals Do You Feel Are Most Critical to the Association Over the Next Three Years and Why?

Achieving recognition for the profession & elevating the security function to influence organizational success.

Security has become a strategic / Board-level topic for many companies. It is now more essential than ever to seize that momentum for security leadership to be recognized as a strategic contributor for the company's success.

Please Describe Your Understanding of the Role of a Member of ASIS International Global Board of Directors Nominating Committee:

Contribute in the appropriate evaluation of candidates for the ASIS Intl Global BOD by assessing and recommending candidates that best reflect ASIS International's values, and offer best-in-class competencies to lead ASIS through its transformation and to the next level and drive the further execution of the Strategic Plan.

Based on this Understanding, In What Specific Ways Could You Contribute/Make an Impact?

I have been active at Board level in companies and believe I can draw from that experience to identify the competencies any candidate may have that contribute to the success of ASIS International.

What Professional Efforts Make You Deserving of this Candidacy?

My only response to this question is that I aim to contribute to the success of ASIS International in any way I can and to the best of my abilities. I have been engaged in volunteer leadership roles since my second year with ASIS International and will continue to do so for as long as I am able to. Whether I deserve to be on the nominating committee is an appreciation to be made by the association.

What Accomplishments Within ASIS (not simply roles you have held) Make You Deserving of This Candidacy?

I believe that making a difference is often achieved in taking small steps. One of those steps that I am proud of, is the transformation of the S&G Committee to the Professional Standards Board, whereby we reorganized the previous committee into an agile and focused group of standards experts that aim to support the membership and help the BOD to achieve their goals.

In What Other Volunteer Activities Have You Participated That Would Best Qualify You For This Position?

ISMA - Board Nominating Committee
DHL Express Leipzig Hub - Board of Directors
