

Omnichannel Identity Verification for Initial & Continuous Authentication

Acuant's AI powered technology provides document and biometric authentication with liveness tests to truly verify if the person transacting is who they say they are. Working in real time, Acuant Verify eliminates manual screening errors, speeds up the document inspection process and significantly reduces employee training, operating costs and customer inconvenience. No matter your use case, Acuant streamlines workflows and protects your business.

Solutions that Bridge the Gap from the Physical to Digital World

Intelligent Data Capture & Auto-Fill

Identity Document Authentication

Facial Recognition Match & Liveness Test

ePassport Issuance, Quality Control & Authentication

Challenges Our Solutions Solve:

Age, Address & ID Verification

Password & KBA Replacement

IAM & Visitor Management

Remote Card / Person Not Present Transactions

Credentialing & Badging

Physical & Digital Security

SECURE

All data is encrypted, nothing is stored on devices or cloud to protect PII

MULTI-PLATFORM

Mobile/Web/Cloud solutions for any device & operating system

EASY INTEGRATION

Easy deployment in any environment, as partial or whole solution
