

# GSX 2021 PRODUCT SHOWCASE & EXHIBIT LISTING

## DOOR LOCKS

**Detex's** Weatherized Electric Latch Retraction function was designed for egress doors with panic or fire exit hardware left exposed to weather environments where remote unlocking, remote dogging, or access control are lacking. Unlike magnetic locks, the outdoor latch retraction remains in the locked position in the event of a power loss. This solution enables customers, staff, and visitors to push to exit a room or facility while preventing unauthorized persons from pulling the door open to enter. Visit [www.detex.com/latch22](http://www.detex.com/latch22) to learn more. **Booth #1733, Circle 100**

## SECURITY CONSULTING

Using 10 focus areas, **Prosegur's** consultants analyze an organization's current security posture, emphasizing three factors: overall security, deployed manpower, and total budget. With a holistic approach to security, these consultants look at how to blend technology with professional expertise, all to achieve higher security at a lower cost. After the analysis, recommendations are offered that will increase an organization's security—replacing superfluous costs and manpower with a combination of technology solutions and traditional guarding. Visit [www.prosegur.com](http://www.prosegur.com) to learn more. **Booth 2141, Circle 101**

## KEY CONTROL

**Morse Watchmans, Inc.**, can help customers reclaim misplaced and lost keys by tracking them with its patented Key-

Watcher TrueTouch software and Touch system. This solution displays which keys are in use, who has them, and when they are returned or due back. Users can customize a KeyWatcher Touch system with options for keys, credit cards, and single and dual-door locker modules for cell phones, wallets, and other personal items. Visit [www.morsewatchmans.com](http://www.morsewatchmans.com) to learn more. **Booth #1714, Circle 102**

# Protecting Healthcare & Budgets for a Lifetime

## LifeSaver™ Life-Safety Anti-Ligature Locks ensure a lifetime of compliance & patient/occupant safety for your facility or institution

Used by leading institutions nationwide, the broad line of Marks USA LifeSaver locks, meet or exceed today's patient safety standards for managed liability, accident- and sentinel event-prevention, including UL, ANSI, TJC and OMH\*. Critical care and security for behavioral, healthcare and correctional facilities, Marks quality, designs and lifetime warranty speak volumes.

- **New! 5-Point Ligature-Resistant Slide model**, complies with latest BHMA 156.34 Anti-Ligature trim standard, TJC and OMH\*; UL 3Hr Fire
- **Matching Models for Every Door** – Cylindrical, mortise styles, models & functions available, including electrified units, ideal for buzz-in/nurse station applications
- **Saves Budgets** - Typically 40% less cost than competitive products, while exceeding durability standards by as much as 400%

**GermAway™ anti-microbial finish available:** Built-in germ barrier & special antimicrobial finish that inhibits microbial growth of dangerous microorganisms, mold, mildew and fungi

- **Ideal for Retrofit or New Construction** – Easy, neat aesthetic installation for all popular preps and door constructions
- **Facility-Friendly & Longest Life** – ANSI 156.2 Grade 1; UL 3-Hour Fire Rated & Lifetime Warranty

**Also Push/Pull Paddlesets** “Gurney-Activation” Strong, Durability, Stainless Steel, & Ease of Use

- **Maximum Durability, Over 3.1 Million Cycles.** Exclusive cylindrical chassis (not tubular) - 3X the ANSI Grade 1 Rating (ANSI 156.2)
- **Easiest Hands-Free Entry** with shortened angle and less force required

**LifeSaver™**  
by  **MARKSUSA®**

## ID READERS

**HID Global** offers an access control solution that supports a wide range of credential technologies, with OSDP support for secure bidirectional communication and remote management. The Signo Readers have an optimized read range with metal detection for automatic recalibration, as well as an

integrated mode for more consistent and faster transactions, while the energy-saving Intelligent Power Mode can reduce energy consumption while not in use. The readers also feature an illuminated keypad, with 49 different color combinations, plus a separate mode for users who are visually impaired. Visit [www.hidglobal.com](http://www.hidglobal.com) to learn more. **Circle 104**

## VISITOR MANAGEMENT

**AlertEnterprise's** Visitor Identity Management offers control of the full visitor lifecycle, with fast and efficient on-site registration. This facility access solution includes COVID-19-specific attestation, email, and Web pre-registration; self-service kiosks; and optional facial recognition technology, creating a more frictionless customer experience. Real-time vetting against watch lists and automated background checks validate guests prior to access, while integrated audits and processes offer automatic compliance with all standards and regulations. Visit [www.alertenterprise.com/products/enterprise-visitor-identity-management/](http://www.alertenterprise.com/products/enterprise-visitor-identity-management/) to learn more. **Booth #2118, Circle 106**

## LOCK CONTROLLERS

**Dortronics Systems, Inc.'s** 48900 PLC Interlock Controller is a fully integrated single-board solution for implementing door interlock systems with up to nine doors. The device provides installers with control of all operating and configuration options without the demand or cost of complex software. This solution also integrates with virtually any access control system using dry contacts, providing outputs for traffic lights, door violation alarm, and offers three individual timing sequences for propped doors, emergency overrides, and request-to-exit unlocking. Visit [www.dortronics.com](http://www.dortronics.com) to learn more. **Booth #1045, Circle 105**

## FIREARMS DETECTION

As a deterrent to mass casualty shootings, **CEIA USA** announced its new generation of weapons detection systems, CEIA OPENGATE, characterized by an open structure with automatic screening of people carrying purses, backpacks, and luggage. Weighing only 25 pounds, the device is portable and installs in less than one minute, requiring no setting or assembly of mechanical or electrical parts. Its passageway does not require any mechanical or electrical connection, so there are no cords or obstacles to step or trip over. Customers can set detection and signaling parameters on the device from an Android or iOS smart device with the OPENGATE app. Visit [www.ceia.net](http://www.ceia.net) to learn more. **Booth #1019, Circle 107**

### PERIMETER MANAGEMENT

The Pro-Watch Integrated Security Suite from **Honeywell** enables an enterprise to benefit from the integration of all of its security solutions, offering complete visibility of connected systems and mitigating business risks. The suite offers video monitoring, access control, and intrusion detection solutions on a single user interface. Visit [www.buildings.honeywell.com/security](http://www.buildings.honeywell.com/security) to learn more.  
**Booth #1801, Circle 108**

### WEAPONS DETECTION

#### CEIA USA FERROMAGNETIC's

MDSi is a ferromagnetic weapons detector specifically designed for easy integration while dealing with covert access control. The detector's small footprint means the technology can be concealed inside of ornamental structures or doorframes. It combines MSD and MSD EVO features into a single and compact device, as well as using heightened sensitivity to detect ferromagnetic contraband and cell phones while ignoring non-threat, nonferrous metals. Using the CEIA FMD app from a smart device running on an Android platform, customers can monitor the device and set operational parameters. Visit [ceia.fmd.com](http://ceia.fmd.com) to learn more.  
**Booth #1517, Circle 109**

### EVENT MANAGEMENT

**Everbridge** helps manage critical events for more than 5,600 customers across the world, reaching more than 700 million people in over 200 countries, reservations, and territories. Visit [www.everbridge.com/platform/critical-event-management/](http://www.everbridge.com/platform/critical-event-management/) to learn more. **Booth #530, Circle 110**

### VIDEO MANAGEMENT

Increasingly higher pixel resolution, a growing number of cameras, and demands for longer video retention are some of the key challenges many organizations currently face throughout the massive transformation in the safety and security industry. **Dell Technologies** provides an open, flexible, and centralized infrastructure, enabling organizations to meet these challenges for video data sets while also reducing risk and cost of ownership. Visit [www.delltechnologies.com](http://www.delltechnologies.com) to learn more. **Booth #757, Circle 111**

## ALERT MESSAGING

LiveSafe from **Vector** is a mobile platform for two-way safety and security risk communications, emergency notifications, safety tools and resources, and COVID-19 health assessments and mitigation. The platform is used by hundreds of Fortune 1000 organizations and educational facilities throughout the United States, assisting with physical safety and security threats, risks to lone workers, sexual harassment and assaults, or health considerations. Visit [www.vectorsolutions.com/solutions/vector-livesafe/](http://www.vectorsolutions.com/solutions/vector-livesafe/) to learn more. **Booth #1868, Circle 112**

## REMOTE ACCESS MANAGEMENT

New from **Continental Access**, the E-Access platform is easy to use and offers self-contained controllers with embedded software. Ready as soon as it comes out of the box and with no software to upload, this system can assist facilities with up to 128 doors and 64 panels, or up to 512 doors and 256 panels by adding a second server. Available in one-door, two-door, and four-door controller models, it offers users hybrid access control in a cloud-based system with the advantages of an on-ises access system. The platform also features secure cloud-based remote management and mobile app management, as well as no-touch Bluetooth mobile credentials and automated credential issuance. Visit [www.cicaccess.com](http://www.cicaccess.com) to learn more. **Booth #1218, Circle 113**

## SURVEILLANCE CAMERAS

**Hanwha Techwin** expanded and updated its series of pan-tilt-zoom (PTZ) cameras with six new models, including the XNP-9250R. These new cameras are 65 percent lighter than conventional PTZ cameras and include an updated twist-lock mounting feature for easier installation. A single HPOE RJ-45 is required for power and data, and the camera's Wise IR provides crisp detail even in complete darkness for objects up to 200 meters away. Visit [www.hanwhasecurity.com](http://www.hanwhasecurity.com) to learn more.

**Booth #1641, Circle 114**

## INCIDENT MANAGEMENT

**Singlewire's** InformaCast Incident Management offers organizations access to all their notifications and resources when an event occurs. This includes initial alerts, follow-up messages, and "all clear" messages. Safety checklists, building floor plans, and links to external resources—including surveillance camera feeds—can also be uploaded and shared with relevant team members, giving them additional data and tools to help resolve an incident quickly and effectively. Once an incident is over, a generated report offers insights into how the event was handled, providing actionable feedback. Visit [www.singlewire.com](http://www.singlewire.com) to learn more. **Booth #1765, Circle 115**

## HOLISTIC MANAGEMENT

**TEAM Software's** solutions can increase an organization's efficiency and streamline operations, offering users the ability to keep an eye on guards' locations, manage rising labor costs, and gain overall visibility over the entire business. With an investment in software, a customer can grow his or her business, even in a competitive market, while remaining accountable to clients, employees, and leadership. Visit [www.teamsoftware.com/gsx](http://www.teamsoftware.com/gsx) to learn more.

**Booth #1040, Circle 116**

## ALARM PLATFORM

**Samdesk** offers clients AI-powered crisis alerts and asset monitoring with real-time notifications of disruption events, even ones occurring near an asset. Feature notifications include updates on local traffic, weather, air quality, and more, and the user can customize alerts by event type, region, and severity level.

Visit [www.samdesk.io](http://www.samdesk.io) to learn more. **Booth #414, Circle 117**

## FIRE ALARMS

**Napco's** new FireLink FACP with cloud programming offers more convenience and flexibility through remote programming from smart devices or tablets, using easy drop-down menus without the need for any specialized software or training. The FireLink Integrated 8-32 Pt Fire Alarm Control Panels start off as an 8-point, all-in-one cellular out-of-the-box solution. And now, cloud-programming offers additional ease with the expansion and ability to customize the programming and panel across a maximum 32 zones, using any combination of conventional, addressable, or wireless devices. Visit [www.napcosecurity.com](http://www.napcosecurity.com) to learn more. **Booth #1218, Circle 118**

## MAIL SCANNERS

**RaySecur's** MailSecur 300 scanner is able to detect 95 percent of mail-borne threats, including traditional threats, such as explosives, plus the most common and contemporary threats like small amounts of powders, liquids, and drugs that X-ray scanners cannot pick up on. Now, RaySecur is expanding its line with MailSecur 500, which offers 2x higher resolution, machine vision for better threat detection, one-click access to EOD support, and more. Visit [www.raysecur.com](http://www.raysecur.com) to learn more. **Booth #608, Circle 119**

## ACCESS CONTROL

The new access control ecosystem from **Napco AirAccess** is a scalable, cellular cloud-based system that is easy to install and operate. Built on the foundations of StarLink and Trilogy Networkx, this Alarm Lock solution offers hassle-free connections outside of an organization's network or IT department. There is nothing extra to buy and no software to upload or upgrade—instead, the AirAccess smart device application offers mobile connectivity and control, plus SMS notifications, without a large hardware or personnel investment. Visit [www.airaccesscontrol.com](http://www.airaccesscontrol.com) to learn more.

**Booth #1218, Circle 120**

## COMPACT TURNSTILES

From **Boon Edam**, the Speedlane Compact presents a security turnstile with a small footprint. The short V-shaped cabinet with an ergonomic design and swing-motion glass barriers can unobtrusively blend into a building's existing design. The turnstile offers standard tailgating, safety, and object detection sensors to assist security and reception staff, as well as flexible lane configurations, an easy installation process, and user-friendly guidance. Visit [www.boonedam.com](http://www.boonedam.com) to learn more.

**Booth #1700, Circle 121**

## AI CAMERAS

**Hanwha Techwin's** eWisenet X-core AI camera, XNO-C9083R, can detect and categorize people and their faces, as well as vehicles and their license plates, improving the accuracy of video analytics. The camera's algorithms can sort a person from his or her surroundings and can improve operator efficiency, able to do so at any angle without the need for an inflated number of additional cameras. Visit [www.hanwhasecurity.com](http://www.hanwhasecurity.com) to learn more. **Booth #1641, Circle 122**

## EVENT SCREENING

**Evolv Technology** offers enhanced security without sacrificing an event experience for attendees, students, and employees. Its patented, industry-first solution allows venues to deploy touchless screening technologies for weapons detection, identity verification, and health-related threats. Built on top of the Evolv Cortex AI platform and powered by advanced sensors and artificial intelligence, the Evolv Express is 10 times faster than metal detectors—improving visitor flow—while also instantly differentiating between personal items and concealed threats like weapons and explosives. Visit [www.evolvtechnology.com](http://www.evolvtechnology.com) to learn more.

**Booth #523, Circle 123**

## WORKFORCE MANAGEMENT

**Trackforce Valiant's** Trackforce Valiant is a leader in providing secure productivity tools for the trusted workforce. More than 300,000 professionals at over 30,000 customer sites in 45 countries use Trackforce Valiant every day to ensure the delivery of reliable services, improve operational efficiency, and optimally manage their human capital. For nearly 30 years, Trackforce Valiant has provided fully integrated work-

force management solutions to businesses employing hourly workers. With extensive industry expertise and state-of-the-art information systems technology, Trackforce Valiant proudly offers security professionals some of the most effective solutions on the market.. Visit [www.trackforce.com](http://www.trackforce.com) to learn more. **Booth #1321, Circle 124**

## LOCKSETS

**Marks USA** offers new Lectra Locks, which can easily retrofit standard locksets with Quick-Connect harness for easier wiring, fitting right through the hinges and avoiding the need to cut into filled frames, making latches more secure by not exposing them. This solution features fire alarm integration and enterprise access control, making it applicable to stairwell doors, mantraps, receptionist desks, and hospitals. It can also be wired to touchless or ADA pads for entry through locked doors, all while being compatible with 12- and 24-volt DC. Visit <http://www.marksusa.com> to learn more. **Booth #1218, Circle 125**

## ACCESS CONTROL

**Brivo** offers users a mobile, cloud-based access control solution for commercial real estate, multifamily residential, and large distributed enterprises. Its product ecosystem and open API offer businesses powerful digital tools to increase security automation, elevate experiences for employees and tenants, and improve the safety of a facility's residents, guests, staff, and assets. Visit [www.brivo.com](http://www.brivo.com) to learn more. **Booth #713, Circle 127**

## AI CAMERAS

With its PNV-A6081R, **Hanwha Techwin** expanded and updated its P series AI cameras. This latest addition presents a more affordable entry level into AI-based camera technology, with features that include license-free video analytics based on deep learning. This allows the camera to detect and differentiate between object types, including people, vehicles, faces, and license plates—plus identify object attributes like an individual's age group, gender, and clothing color or an automobile's type and color. Visit [www.hanwhasecurity.com](http://www.hanwhasecurity.com) to learn more. **Booth #1641, Circle 126**

## ACCESS MANAGEMENT

With Synergis, **Genetec** now offers customers a way to modernize an outdated or legacy access control system. With an open architecture, this solution minimizes the amount of hardware that needs to be replaced, allowing clients to update the system at their own pace while protecting people and assets and minimizing new threats. Visit [www.genetec.com](http://www.genetec.com) to learn more. **Booth #841, Circle 128**

## PERIMETER FENCING

**Ameristar's** Matrix Alpha security fence is a curtain wall system designed to expand to the level of the required site security. The fence's framework structure allows the user to define the level of security needed by selecting a preferred mesh option that details the degree of delay and site visibility. Available in hot dip galvanized (HDG) or PermaCoat, the system is a baseline for perimeter security. The curtain wall architecture allows for variable post spacing, resulting in reduced installation times. Visit [www.ameristarfence.com](http://www.ameristarfence.com) to learn more. **Booth #1363, Circle 129**

SECURITY  
**MANAGEMENT**  
PODCAST

Enhance your ability to protect people, property, and information by listening to *Security Management Highlights*.

# A Preliminary Guide to the GSX Exhibits

**27-29 SEPTEMBER**

**ORLANDO, FLORIDA, USA**

ATTENDEES AT THE GLOBAL SECURITY EXCHANGE (GSX) in Orlando, Florida, will have the opportunity to hear about the latest issues in the security industry from experts at high-level educational presentations, game changer panels, and general sessions. In addition, the latest trends in technologies and services will be on display in the exhibit hall.

This preliminary guide offers an alphabetic booth listing and a numeric booth listing of exhibitors. Further detailed categories and company information are available on *GSX.org*. This listing provides only information submitted by exhibitors as of 29 July 2021.

The most up-to-date and comprehensive information on exhibitors, education sessions, and more will be through the GSX 2021 app. Until GSX officially kicks off 27-29 September, this preliminary guide can serve as a sample of some of the products you need to know about most.

## GSX PLATFORM & APP

Through the GSX platform and app, attendees will be able to chat one-on-one, partake in critical discussions through multiple chat forums, schedule Zoom meetings, and access event information. The platform and app are the bridge between the digital and in-person audiences, ensuring that no matter where you are in the world, the global security community remains connected. All-Access attendees will be able to log in and get acquainted with the platform and app during a digital preview event on 15 September.

## GSX DAILY

The official ASIS digital newsletter

is produced by the *Security Management* staff and distributed to GSX attendees and ASIS members every morning of the show. In addition to an array of articles about GSX speakers, trends, and events, a special Product Guide in each e-newsletter introduces selected products and services on display in the exhibit hall.

## SECURITY MANAGEMENT

The September/October issue is filled with advertisements from numerous exhibitors. The exhibitors that have advertised in this issue of *Security Management* are highlighted throughout this preliminary guide. Please check the advertiser index on

page 65 to request detailed product information through our monthly e-response. Or use a smartphone to access the QR code.

Booth numbers of those advertisers that will be in the exhibit hall are included at the bottom of their ads.

The following listing of exhibitors and their booth numbers by alphanumeric order is current as of 29 July. For more recent updates, download the GSX app.

For product info #130 [securitymgmt.hotims.com](https://securitymgmt.hotims.com)

**NOW FREE APP  
& FREE MOBILE  
CREDENTIAL**

## Want Happy Customers? Hand Them Their Freedom with A Mobile Pass thru Their Access Control System for FREE

While technology keeps changing, smartphones remain front and center. So, it makes sense one of the top requirements in Access Control today, is for easy mobile control & credentials. That's why we created the secure Continental Access CA4K App with Built-in Mobile Credentials. Now, besides providing contactless authorized access through any type of door - working with any brand reader and most wireless locks—the App's also FREE to download from Apple or Google Play.

Ideal for anyone in your buildings, campus, schools or hospital, the CA4K Access Mgr App & Integrated Platform simply provide smartphone-based multi-tier access privileges for a few to large numbers of users; and Security Managers with smart, comprehensive enterprise control of users, threat-levels and a few, to thousands of doors, anywhere you are.

- **FREE Easy Intuitive Mobile App** provides Contactless Access for All Readers & Door Types from any smartphone
- **FREE Mobile Credential built in** app for Fluid Access thru any building or campus (Free. No annual subscription fees)
- **Emergency Alerts** - Sends push notifications (or emails) to users' phones in the event of an emergency, threat level escalation or lockdown event.
- **Integrated with CA4K Enterprise Security/Video/Access Platform** for Comprehensive Control of All Doors (1-32,000), wireless PIN/Prox locks, readers, elevators & entryways
- **Fast powerful processing** ensures fast, smooth access for simultaneous users even at peak times
- **Easy Migration & Generous Tradeup Incentive for Retrofitting Existing Systems** - Keep your existing readers & simply import your personnel database

A Division of NAPCO Security Technologies
