On a regular basis, I leverage the timely content found in Security Management to stay ahead of emerging, global security issues and on top of evolving technology and solutions. Specifically, the coverage on cybersecurity, legal, enterprise security risk management (ESRM), and focused vertical markets is vitally important to my business and those in the industry. The podcasts and additional electronic articles also support the ever-changing landscape of the industry. These tools are vital in my decision process.”

Model of Success

Ed Shubert | Senior Director Global Security Operations Center | McKesson Corporation

"Security Management Magazine is an excellent resource for keeping abreast of evolving trends in security technologies, security strategies, and emerging security/safety threats. The magazine delivers a variety of important industry topics as well as actionable information that I have used to enhance the security disciplines that I oversee. I really value the security professional interviews and the best practices and case studies focused on key business sectors."

*Cover tip-ons are only available for high volume show distributions.*

**Designers please note:** The dotted lines indicate the magazine’s horizontal trim which is 8.25” wide. Any pertinent copy or image should stay 3/8” inside this gray area. Also please note that the band is much longer than needed, however we need that extra space to trim off excess before hand-adhering the two sides together in the back. Please be aware of this when designing the back of this advertising piece.
Throughout my career in law enforcement and in banking, I have read *Security Management* to strengthen my awareness of other security areas besides the financial sector. By doing so, I’ve been able to successfully apply applications and solutions I normally would not have considered. The Legal Report column is critical for all security professionals, from entry-level to CSO. It is a must to keep updated on the continuous court challenges and you can learn valuable lessons from the mistakes of others.
Security Technology Supplement

NEW by popular demand! Our new quarterly supplement is dedicated to the ever-evolving technological side of security solutions and allows security vendor leaders and newcomers alike to show off their latest product offerings. This vehicle is a great option for product launch initiatives, content marketing programs, and educating the 35,000-plus members of ASIS International about specific product/solution advances.

Here’s a sampling of ways to take advantage of this targeted editorial environment:

- Run a prewritten case study by purchasing advertorial page(s)—one to four-page units available
- Run a product-specific advertisement—full and half page units available
- Run a thought leadership article or an infographic through purchasing content marketing units—full and half page units available
- Run a product description unit, including photos and content—available in many sizes
- A combination of all the above, which qualifies for a combination discount

Each of the above options is cost-efficient, with an additional 50 percent discount if coupled with an ad program in that month’s issue of Security Management.

Please note: there is limited advertising and content inventory in the SM supplement, so reserve yours early!

Security Technology’s Specs For Print Sizes

- $4,500 Spread or Two Full Pages
- $3,000 Full Page or Advertorial
- $1,500 Half-Page Horizontal
- $1,500 Half Page Island

Paid advertisers in the same issue of Security Management receive a 50% discount off ads and/or case studies running in the supplement.
I find Security Management valuable because the content is current, relevant across industries, and is provided by both ASIS staff editors and contributing authors within the security profession.”
Content Marketing

Attract customers by creating valuable content for their benefit. Though Security Management content marketing campaigns, deliver helpful information to your audience and increase the prospect they will reward you with business and continued loyalty.

**WHITE PAPERS**

**$6,000 net**

White papers focus on a relatively narrow subject and are based on your company’s existing resources, interviews with 1-2 subject matter experts in your company, and general research. Baseline projects will typically run 4-6 published pages.

**WEBINARS**

See pricing below

Webinars enable you to select a compelling topic, develop the content, and participate in presenting. A producer will assist you in tailoring your concept to ensure your webinar is eligible for recertification credits.

Avg. Registrants: **1,284**
Avg. Attendees: **898**

**CASE STUDIES**

**$8,000 net**

Security Management case studies focus on specific installations or applications of a technology, products, or services. Case studies require more extensive interviews, often with company representatives, end-users, and installers.

**ROAD SHOWS**

Contact your sales rep for pricing and additional details

A road show is a live event that allows a company to position itself as an industry leader by providing education to attendees on topics that affect the entire security industry. This half-day workshop allows face-to-face interaction with decision makers, providing a company with increased brand awareness and a forum to present unique solutions to critical problems.

**ORIGINAL RESEARCH PROJECTS**

**$7,500 net**

Custom research

**$4,500 net**

Companion White Paper based on research

Original research is conducted through surveys and interviews of ASIS professional members. Research project deliverables consist of full results, charts, and graphics.

*Unique attendance does not include duplicates from live and on demand viewers.
I like the design and the deep dive on a specific topic. I keep *Security Management* in my office and I often recommend it to my security colleagues, especially when there’s a particular issue that we’re discussing. I say, ‘why don’t you pick this up, take it back to your office, and read through it.’

The Fine Print

**INVOICES AND CREDIT:** Our invoices are NET 30 DAYS, with no prepayment discounts. Commissions disallowed on invoices not paid within 30 days of invoice date. Overseas advertisers must prepay in NET US dollars.

New advertisers and agencies must prepay their first insertion. After credit approval, we bill following publication. No advertiser or agency with invoices more than 60 days outstanding will be permitted to place advertising or contract for exhibit booths until all outstanding invoices are paid. Advertisers and agencies with records of delinquent payment to ASIS International will be required to prepay until they have re-established good credit.

Payments received will be credited to the oldest outstanding balance.

**DISCOUNTS, REBATES, AND SHORT RATES:** You will be billed at the one-time rate unless we have entered into an advertising contract. Frequency discounts are paid as a rebate after the contract period expires. An advertiser who does not complete a committed schedule will be subject to a short rate.

**COMMISSIONS:** Commissions of 15% of gross billing for space and color are granted on accounts paid within 30 days of invoice date. 15% commission is available on all space, except for classified advertising. Mechanical charges, tip-in charges, and classified advertising are not commissionable.

Commissions are extended only to recognized agencies. We require written confirmation of the agency appointment from the advertiser. If we bill the advertiser, our invoice will be for the gross amount.

**CANCELLATIONS AND CHANGES:** Cancellations of or changes to existing insertion orders must be made in writing before the ad deadline to which the insertion order applies. Ads cancelled after the issue closing date will be billed at the prevailing space rate.

**CONDITIONS:** All advertising is subject to publisher’s approval and agreement by the advertiser to indemnify and protect the publisher from loss of expense or claims to suits based upon the subject matter of such advertisements.

You may make promotional references to Security Management with prior written permission.

We reserve the right to place the word “advertisement” with copy that could be mistaken for editorial material.

Insertion orders placed by an agency represent acceptance of all terms and conditions in this rate card. We are not bound by conditions appearing on order blanks or copy instructions when such conditions conflict with terms and conditions. Nor are we bound by conflicting contracts and orders received from advertiser or agency.

Insertion orders are accepted from agencies with the understanding that the agency is acting as the advertiser’s representative. Agency and advertiser are jointly and severally responsible for all space, color, position, and mechanical service charges incurred by either.

**DISCOUNTS:** Contracts cover number of issues within 12-month period beginning with the month of first insertion. Contract provides advertisers with rate protection for 12 months.

**FREQUENCY:**

- Multiple insertions within an issue count toward contract frequency discounts.
- Subsidiary companies can share frequency under a parent company “umbrella” contract.
- Advertising in the ASIS show daily newspaper applies toward Security Management contract frequency.

**SERVICES TO ADVERTISERS:** We can help you make the following changes to your materials: new type, key-code, address change, strip-ins, etc. Charge for services: Cost plus 20% (non-commissionable; $25 minimum). A digital version of every ad will be archived indefinitely. All physical materials will be disposed of after 12 months unless otherwise specified upon submission. Accurate color proofs will only be saved for 12 months after the last use.
