Maximize your brand’s exposure, establish thought leadership, and reach industry professionals with our exclusive Custom Webinar Program.

You have full control over the webinar’s content. Choose the topic, description, speaker(s), and materials to align with your brand’s expertise. We’ll review and approve the presentation, providing attendees with a valuable ASIS Certified CPE credit.

Planning timeline, consultation, coaching, and rehearsal sessions provided by ASIS Security Management. Our experienced technical services team will assist you in delivering a seamless webinar experience.

Gain extensive visibility through strategic promotions on our websites, newsletters, and a dedicated e-blast. Your brand will be showcased to our vast network of industry professionals, increasing your reach and amplifying webinar registrations.

ASIS will provide a special verbal recognition at the beginning of the custom webinar, ensuring attendees are aware of your brand’s support to the security industry and reinforcing your association with the educational content.

Provide up to three downloadable resources related to the webinar topic, showcasing your products, services, or exclusive insights. Plus 10 minutes of audience Q&A will be reserved at the end of the webinar.

Receive the event recording, survey responses, resource downloads report, and the detailed registration summary. Registration reports include all registered, live and on-demand attendees. Webinar archived 12+ months.
Sponsor an ASIS Webinar with security management

Maximize your brand’s exposure, establish thought leadership, and reach industry professionals with our exclusive Sponsored Webinar Program.

Sponsors receive prominent recognition in all online and newsletter promotions related to the event, maximizing visibility and brand exposure.

A dedicated eblast is sent to ASIS/SM’s database of 50K+ contacts, typically one week before the live event.

Sponsors are acknowledged at the beginning of the webinar.

Sponsors can provide up to 3 downloadable resources that attendees can access during the presentation. These resources can be webpages, video files, or PDFs.

Detailed reports are provided to sponsors, indicating which attendees accessed each resource.

Sponsors receive a detailed report that includes the information of all registered and live attendees, allowing for personalized follow-ups and lead generation.
