COVER STORY

WELCOME TO GSX 2022

The GSX Daily—brought to you by the *Security Management* team—is here to help you navigate the security trends, emerging technology, and networking opportunities in Atlanta with newsletters direct to your inbox, updates on our [landing page](#), and news alerts on our [Twitter feed](#).

DAILY SCHEDULE

MONDAY

Monday at GSX 2022 is action-packed. Here’s our guide on how to catch the general session, navigate events on the show floor, get your copy of the Security Industry Book of the Year signed, and more.

Wisenet EDGE

Hanwha Techwin’s new Wisenet EDGE technology solution combines a dome camera, Wisenet WAVE Server, and on-board recording capabilities into one intelligent device. The new technology is ideal for security environments suited for a serverless system with minimal external hardware. Wisenet EDGE is available with either 1 TB or 2 TB of on-board Solid State Drive (SSD) storage, with a flexible architecture that allows users to record multiple additional cameras to one Wisenet EDGE camera acting as a system’s server. Wisenet EDGE systems can be easily merged, expanding beyond single-camera installations to create multi-site systems connecting dozens of cameras.
